SUMMARY

First Class Computer Science graduate and Microsoft-certified Data Analyst with research experience in machine learning for healthcare prediction and professional experience in data analytics and business intelligence. Experienced in predictive modelling, data analysis, data quality monitoring, and stakeholder reporting, with research interests in Artificial Intelligence, Machine Learning, Data Science and Health AI.

EDUCATION

BSc Computer Science — First Class Honors (CGPA 4.86/5.0) Aug 2023

Augustine University, Ilara-Epe, Lagos, Nigeria

- Valedictorian
- Overall Best Graduating Student
- Thesis: *Advancing Healthcare Predictions - Machine Learning Insights into Heart Disease and Diabetes*
- Supervisor: Prof. H.O.D. Longe

PUBLICATION

- Longe, H. O. D., Obalalu, A. M., & Ogunbanwo, K. M. (2024). *Advancing Healthcare Predictions: Machine Learning Insights into Heart Disease and Diabetes*. Manuscript under review.

RESEARCH EXPERIENCE

Final Year Thesis | **Augustine University** | **2023**

- Developed and evaluated machine learning models for predicting heart disease and diabetes using Random Forest, Naïve Bayes, Support Vector Machine (SVM), and K-Nearest Neighbors (KNN).
- Achieved the highest accuracy of **87% for heart disease using KNN** and **82.8% for diabetes using Random Forest**.
- Conducted data preprocessing, feature selection, model evaluation, and analysis of predictive performance.
- Presented findings through a research presentation and final-year project defense.

Research Fair Participation | Augustine University | **2022**

- Participated in the First Research Fair, *Conceptualizing the Research Culture through Innovation and Product Development*.

PROJECTS

1. Customer Churn Prediction

- Developed a machine learning approach to predict customer churn within the SME segment of an electricity provider.
- Applied feature engineering and data analysis to identify customers at risk of churning and inform targeted retention strategies.

2. Customer Segmentation Analysis

- Conducted customer segmentation analysis to identify key customer groups and differences in purchasing behavior.
- Used data-driven insights to inform personalized customer experiences and strategies for improving customer engagement and retention.

PROFESSIONAL EXPERIENCE

Business Intelligence Analyst | Oxygen X Finance Company, Lagos, Nigeria Jun 2025 – Present

- Contributed to a bank-wide digital lending transformation initiative that expanded digital credit offerings across multiple customer channels, introducing automated customer profiling and enhanced credit decisioning.
- Led the build and redesign of a Data Quality Monitoring Dashboard, tracking data quality performance against an 85% target across core customer data elements and seven channels for executive and operational audiences.
- Designed and maintained BI reports monitoring loan disbursements, customer eligibility, and portfolio outcomes, generating insights that informed lending strategy and stakeholder decisions.
- Conducted production data validation and reconciliation exercises, identifying discrepancies between legacy and new lending systems and improving reporting accuracy.
- Designed a Fraud Audit Dashboard validating customer identity via BVN and user-submitted images to strengthen KYC verification.

Technologies: *Amazon Redshift · Microsoft Power BI · Oracle · PostgreSQL · Microsoft Excel*

Data Analyst | Bluechip Technologies Limited, Lagos, Nigeria Jan 2024 – May 2025

- Developed dashboards that improved operational efficiency by 40% across client accounts.
- Conducted trend analysis and forecasting to support client supply chain and asset decisions.
- Deployed AI-powered reports that reduced monthly manual reporting time by 50%.

Data Analyst Intern | Primo Academy (Remote) Nov 2023 – May 2024

- Built interactive dashboards and conducted financial and operational analyses for performance tracking.
- Developed risk assessment model identifying 90% of at-risk customers, enhancing retention strategies.
- Implemented feature engineering techniques improving model accuracy by 25%.
- Performed customer segmentation for an automobile company, identifying four key market segments and boosting marketing efficiency by 30%.

Industrial Training Intern | Hands-on Institute of Information Technology (HiIT) Plc., Lagos, Nigeria Apr 2022 – Oct 2022

- Gained proficiency in Python programming for data analysis (Pandas, NumPy, Matplotlib).
- Developed an e-health prototype project connecting doctors to patients through user data analysis and system requirements design.

AWARDS & RECOGNITION

- Monsignor Patrick Obayomi Award for Overall Best Graduating Student | Augustine University - Oct 2024.
- Chief Gilbert Temisan Grant for Best Graduating Student, Faculty of Science - Oct 2024.
- Augustine University Alumni Award for Best Graduating Student - Oct 2024.
- Vice-Chancellor's Merit Award, Augustine University - 2020, 2021, 2022.
- Most Outstanding Intern, HiIT Plc. - Sep 2022.

LEADERSHIP

- Innoverse Champion, Data Team | Oxygen X Finance Company: promoted a culture of innovation and drove idea-generation initiatives within the team, including the AI Silent Risk Detector, Logistics Route Optimization, and MediStore pitch decks.
- Risk/Information Security Champion, Data Team | Oxygen X Finance Company: led compliance, risk assessment, and audit readiness activities for the team.
- Strategic Advisor, Obiloto-Africa (Jan 2025 – Present): helped establish an initiative providing holistic education and scholarships in rural Nigeria; led hiring, administration, and outreach strategy. Coordinated the 2025 Educational Summit, reaching 100+ students from 5 rural schools through mentorship, debates, and scholarships.
- President, Augustine University Board of Lectors (Jun 2022 – Jun 2023): served three consecutive years as Assistant Provost and Provost before election as President; coordinated schedules, trained new members, increased membership by over 60%, and authored the board's first constitution, still in use.

VOLUNTEER & COMMUNITY IMPACT

Obiloto-Africa | Cross River State, Nigeria

Strategic Advisor Jan 2025 - Present

- Helped establish an initiative providing holistic education & scholarships in rural Nigeria.
- Led hiring, administration, and outreach strategy.
- Coordinated the 2025 Educational Summit, reaching 100+ students from 5 rural schools through mentorship, debates, and scholarships.

Codesphere Hub | Lagos, Nigeria Jun 2026

Volunteer

- Participated in a technology outreach programme at an all-girls secondary school, introducing students to technology and coding fundamentals.

CONTINUING EDUCATION & PROFESSIONAL MEMBERSHIP

- Member, Microsoft Fabric Community Nigeria | Sep 2026 – Present
- Member, Codesphere Hub — community programme that supported PL-300 exam preparation | Jun 2026 – Present

RESEARCH INTERESTS

- Artificial Intelligence; Machine Learning; Data Science; Health AI; Generative AI; Large Language Models (LLMs)

TECHNICAL SKILLS

- **Programming & Data:** Python (Pandas, NumPy), SQL (Redshift, PostgreSQL), Excel
- **Machine Learning:** Predictive Modelling, Feature Engineering, Model Evaluation, Data Preprocessing
- **Data Visualization & BI:** Power BI, DAX, Dashboard Development, Data Visualization
- **Cloud & Tools:** AWS, Jupyter, GitHub, Microsoft 365.
- **Application Areas:** Healthcare Analytics; Fintech Lending; Fraud Detection; Risk Assessment

CERTIFICATIONS

- Microsoft Certified: Power BI Data Analyst Associate (PL-300) | Jun 2026
- Building Streaming Data Pipelines in Microsoft Azure - PluralSight | Nov 2025
- Introduction to SQL – PluralSight | May 2024
- Data Analytics Trainee Program – Primo Academy | May 2024
- **IBM Data Analytics Certifications**: Data Analysis with Python; Python for Data Science, AI & Development; Data Science Methodology; Tools for Data Science | Nov - Dec 2023

LANGUAGES

English (Fluent in speaking, proficient in writing) | French (Basic)
